Appendix B

Department of Main Roads Environment and Heritage Policy and Strategy 2008-2013

JULY 2011

The following document is available at <http://www.tmr.qld.gov.au/~media/d636b12d-d1f6-48e1-84f8-d64aa4291982/mr%20ehps%202008%2013.pdf>.

Our vision

Environmental and heritage values associated with Queensland's state-controlled road network are recognised for their importance and are respected.

Policy statement

Main Roads will manage road impacts on natural, human and cultural environments by:

- » Meeting statutory obligations of all relevant environmental and heritage legislation as a minimum standard.
- » Considering the effects on stakeholders and long-term relationships when carrying out statutory obligations, and seeking feedback on our performance.
- » Acting as a good government agency and adopting a proactive approach to environmental and heritage management.
- » Improving awareness of environmental and heritage management processes, standards and responsibilities among Main Roads' employees and contractors.
- » Ensuring Main Roads approach to the management of environmental and heritage impacts embrace the hierarchy of "avoid, minimise and mitigate" in a financially feasible manner.
