Dear Sir,

RE: GUTHALUNGRA AQUACULTURE PROJECT

With reference to the above project, I advise Council's support for the project.

Aquaculture has been identified as a significant potential industry in the Bowen Shire and parts of the coastal areas of the Shire are suited for this industry.

The Aquaculture project will provide economic benefits to the Shire in terms of job opportunities and the flow on effects to other businesses and opportunities and thus Council also supports the project in this regard.

Yours faithfully
